KINDS OF DEEP PROCESSING TECHNOLOGY

We have production lines of decals, screen-printing, thermal-transfer printing, color spraying and Eco-friendly frosting.

- Decals

ABOUT CUSTOMERS

Kaipu Glass is a glass bottle manufacturer that integrates production, processing, design and R&D. It was established in 2010, of which the head office is located in the city of Qinhuangdao, China. The annual output is about 30,000 tons.

ENVIRONMENTALLY FRIENDLY PRODUCTION

The furnace uses electricity as the melting energy source, through wind and solar energy, and there is no polluting gases are emitted.

5 COLOR CHANGE IS MORE FLEXIBLE

For example, for glass bottles of about 500ml, the general condition for discoloration is that the order quantity requires 10 million pieces, but we can do 6 million pieces. Of course, different capacity bottles, different quantity requirements.

The printing material is made of transparent resin, which can be applied with decal and spraying and has a high degree of restoration.
